	Skin					
CHIEF COMPLAINTS	- Nil Significant					
For corporate health checkup	Present medications					
Pain and stiffness of right thumb	- THYROX 75					
PRESENT KNOWN ILLNESS						
No history of - Hypertension, Heart	Version Past medical his	story				
Diabetes mellitus - type 2; Medication -	Past medical history	- nil significant				
Dvslipidaemia Medication - regular	Surgical history	,				
DyslipidaemiaMedication - regularThyroid disease- hypothyroidism;	Caesarian section	- YES				
Medication - regular	Personal histor	y				
DRUG ALLERGY	Marital status	- Married				
NO KNOWN ALLERGY :22/10/2022	Diet	- Mixed Diet				
	Alcohol	- does not consume alcohol				
	Smoking	- No				
Cardiovascular system	Chews tobacco	- No				
- Nil Significant	Physical activity	- Mild				
Respiratory system	Family history					
	Father	- has expired				
- Nil Significant	Mother	- has expired				
Gastrointestinal system	Coronary artery	- none				
- Nil Significant	disease					
Genitourinary system	Cancer	- None				
- Nil Significant	PHYSICAL EXAMINATION					
Gynaec history	🛃 General					
Periods - irregular; No of Children - 1; Deliveries -						
LSCS	Build Height	- normal - 154				
Central nervous system	Weight	- 53				
- Nil Significant	BMI	- 22.35				
Eyes	Pallor	- No				
- Nil Significant	Oedema	- no				
•	কৈ Cardiovascular	system				
	Heart rate (Per minute)	- 94				
- Nil Significant	Rhythm	- Regular

AICVD RISK SCORE REPORT						
<b>RISK STATUS</b>	YOUR SCORE	ACCEPTABLE SCORE				
Low Risk	3	3				

#### Your cardiovascular disease risk in the next 10 years is within the Normal limits for your age and gender

The AICVD risk score developed by Apollo Hospitals is a novel artificial intelligence -based risk scoring system that predicts your risk of having Coronary Artery Disease (CAD) related events in the next ten years. This scoring system uses Indian data and has been validated by multiple national and international institutions. This risk score is more than 92% accurate and has been compiled based on your physical parameters, heart health attributes, lifestyle and medical history. **Note:** The risk category is determined through the ratio between guest score and acceptable score at multiple decimal points. The outputs are shown in whole numbers.

#### Based on your AICVD risk score you are advised the following:

- Follow the guidance and education on lifestyle and dietary management provided through the ProHealth program. Maintain a healthy BMI (<25). Avoid tobacco in any form and if you are a smoker, stop smoking.
- Continue with **medications** for high blood pressure, diabetes, or dyslipidemia, if advised by your physician. Maintain HbA1c <7% (<53mmol/mol), blood pressure <140/90mmHg.
- Follow your physician's advice regarding follow up tests, consults and annual health assessment

#### DISCLAIMER

- 1. This is not a diagnostic tool and it does not guarantee accuracy of the result and cannot be acted upon independently.
- 2. This risk score and clinical algorithm is a general guideline for physicians. Any additional laboratory investigations, diagnostic imaging, treatment or patient education related to lifestyle management is under the physician 's or cardiologist's discretion.
- 3. To ensure the information in the report is up to date, accurate and correct, doctor shall be consulted for interpretation of the report.
- 4. Apollo Hospitals and its staff does not offer any assurance on the information made available or be liable for any loss or damage as the said report is based on the AICVD risk score without any intervention from their side .
- 5. By usage of the AICVD risk score, it is deemed that the beneficiary of this service has agreed to get the same done at his own risk and further agrees with this disclaimer without any limitation or any clauses or sub-clauses.
