MER- MEDICAL EXAMINATION REPORT

Date of Examination	15/04/2024		
NAME	Vishal Nayak		
AGE	22	Gender: male	
HEIGHT(cm)	174	WEIGHT(kg): 73	BMI: 24.1
B.P.	120/80 mmHg		
ECG	Normal		
X Ray	Normal		
Vision Checkup:	Left Eye		Right Eye
	Distance Vision:	6/6	6/6
	Near Vision:	6/6	6/6
	Color Vision:	Normal	
ENT / Audiometry Checkup			
Present Ailments			
Details of Past ailments (If Any)	No		
Comments / Advice : She /He is Physically Fit	He is Healthy		
No history

Investigation	Observed Value	Biological Reference Interval	Unit
---------------	----------------	-------------------------------	------

**BLOOD GROUP, ABO & RH TYPING**

**Blood Group, ABO & RH Typing**

**ABO Group** : O  
**RH Factor** : Negative

The test to determine your blood group is called ABO typing. Your blood sample is mixed with antibodies against type A and B blood. Then, the sample is checked to see whether or not the blood cells stick together. If blood cells stick together, it means the blood reacted with one of the antibodies.

Rhesus (Rh) factor is an inherited protein found on the surface of red blood cells. **If your blood has the protein, you're Rh positive. If your blood lacks the protein, you're Rh negative.**

<b>SGPT (ALT)</b>	22	00 - 40	U/L
-------------------	----	---------	-----

**Interpretation**  
SGPT exists predominantly in the liver and leaks into the bloodstream when produced in excess. The SGPT normal range is about 0 - 28 units per liter of blood serum. Thus, very high level of SGPT in the blood can be an indication of damage or problems related to the liver.
