Remarks:

GENERAL INFORMATION ABOUT YOUR SPECTACLES :

- Wear your glasses regularly and follow the instructions as advised
- It may take a few days to adjust to the new number/ spectacles, In case of discomfort, eye strain, headache, improper/ distorted vision etc, kindly visit the hospital.
- Glasses/ spectacles need proper care and maintenance for a long life.
  - Keep them clean by using the special lens cleaning solutions or with diluted soap & water
  - Avoid placing spectacles with lens facing down as they get scratched easily.
  - NEVER use paper towels, tissue, or napkins to dry your lenses. All of these materials have a textured surface and can easily scratch your lenses.
  - Also refrain from using the tail of your shirt.
- Your number may change by time so regular follow up is advisable preferably every 6 months. In case you notice any difficulty in seeing clearly get your vision checked.
- In case you have distant & near vision glasses, ask for bifocal/ progressive lenses.
- Bifocal lenses have upper segment for distance & lower segment for near vision.
- Progressive lenses provide focused vision for distance, near, and intermediate vision.
- Contact lenses number may slightly vary from the one given above, If interested in contact lenses kindly ask for assistance.
