Findings :

Exercise Time : 06:22
 Max HR Attained : 182 bpm 94% of Target 193
 Max BP Attained : (Sys) 150/90
 Max WorkLoad Attained : 7.5 Fair response to induced stress
 Test End Reasons : Fatigue

Technician

Dr. NIPUN MADHAV
 MBBS, M.D. (Pathology)
 Reg. No. MP-18747

Add.: Minal Gate No. 01, Chanakypuri, J.K. Road, Bhopal, M.P. 462023

Subject of following conditions :- The science of pathological diagnosis is based on interpretation of immunobiochemical ELISA, RIA and other reactions which are influenced by several factors. Assays are performed in accordance with standard procedures. The reported results are dependent on individual assay methods, equipment, specificity, sensitivity, drug interaction and the quality of the specimen (s) samples receiver. The most sophisticated computerized blood analyzer techniques are subject to uncountable variations. Results of test vary from laboratory to laboratory and also in some parameters from time to time for the same patients. So the final diagnosis, conclusion should not be drawn from these test only hence kindly correlate clinically. Adviced follow up. The laboratory investigations should always be interpreted in the light of clinical features and other related investigations. Should the result indicate an unexpected abnormality, reconfirmation shall be sought. This report is not valid for humanly mistakes.
