HbA1c is an excellent index of long time diabetes control over preceding 2-3 months. Unlike blood sugar which tend to fluctuate from day to day and even hour to hour the HbA1c test is a true index of the average blood glucose control during previous, 2 - 3 months. HbA1c test is done in this Laboratory Rapidly and Precisely using GOLD STANDARD of the HbA1c testing with out interference from schiff base, lipemia, temperature fluctuation
