Sub:- Non- Requirement of PAP Test.

Sir/Madam

with reference to the above I hereby inform you that I don't require the PAP Test included in my yearly health check up plan. As the test have been done by me around 15 days back and nothing abnormal was reported in the reports.

So, I humbly request you to consider my request.

Yours Sincerely

<p><b>Note:</b> TSH has a diurnal rhythm, peaks at 2.00-4.00 am and has lowest level at 5.00-6.00 pm with ultradian variation. Hence thyroid test is only a snapshot of what is occurring within a dynamic system and for treatment purpose, the results should be accessed in conjugation with patient medical history, clinical examination &amp; other tests/finding for confirmation. Many multivitamins (such as Vit B7), supplements (especially hair, skin, and nail) and over-the-counter and prescription medications may affect thyroid test results, and their use should be discussed with the healthcare practitioner prior to testing. When a high serum TSH concentration and normal free T4 is found, repeat measurement 3-6 months later along with thyroid antibodies after excluding nonthyroidal illness and drug interference is recommended.</p>
