MEDIWHEEL FULL BODY ANNUAL PLUS CHECK
ADVANCED-FEMALE

Dear Mrs. AFAK KHAN

Thank you for choosing Apollo ProHealth, India's first personalized, predictive health screening program with health risk assessments curated just for you to guide targeted intervention, continuum of care and a path to wellness. Our holistic care continuum integrates clinical expertise and artificial intelligence to gauge and avert the risk, onset and progression of non-communicable diseases (NCDs).

In this personalized health report, you will find your

- Medical History and Physical examination results
- Investigations Results
- Artificial Intelligence powered risk scores
- Physician's Impressions on your Health
- Path to Wellness: A personalized management protocol, including follow-up assessments
- Vaccination counselling advice

Apollo ProHealth encompasses the following processes:

Personalized Health Risk Assessment (pHRA): Based on your online risk assessment, medical history, physical examination, and psychological evaluation, we recommended a health screening assessment for you, including diagnostic and imaging tests. Based on the results of these assessments, we have advised additional follow-up tests and consultations - details of which we have included in your report. Your physician will explain their relevance, and we strongly suggest you comply with the recommendations.

Health Mentor: We have assigned a dedicated health mentor to proactively work with you towards your health goals and ensure that you regularly adhere to the guidance and recommendations from clinical and nutrition consultants. Your health mentor will call you periodically to track your progress

ProHealth App: You will get access to the Apollo ProHealth App, which will facilitate easy navigation of personal health records, progress towards your health goals, appointment booking, customized tips and guidance for health and lifestyle management, and regularly connecting with your Health Mentor through the in-app chat. Until you return for your 2nd-year assessment, you will receive periodic updates and reminders to motivate you to keep up the momentum regarding health goal milestones.

Follow- Up Consultation:

For any follow-up consultations, you can visit your ProHealth physician in-person at the center or you can book a virtual consultation through <https://www.apollo247.com/specialties> or through the Apollo 247 app on your phone.

Scan the QR code to download the Apollo 247 App

You can also download the Apollo 247 app on

ANDROID IOS

Disclaimer: *The services offered in the program may vary as per the respective agreements made in the program or center or agreed mutual consent.*

Note: *You are entitled to one complimentary follow-up consultation with your ProHealth physician within a period of 1 year. Please contact your health mentor for the complimentary consult coupon code. This is available for ProHealth Super, Regal and Covid Recovery and Wellness programs*

Chief Complaints

For corporate health checkup
Difficulty in walking
Back pain
Paralysis Rt LL Since age of 3 years

Present Known illness

No history of - Diabetes mellitus, Hypertension, Dyslipidemia, Thyroid disorder, Heart disease, Stroke, Asthma, COPD, Cancer, Impaired Glycemia

Drug Allergy

NO KNOWN ALLERGY :11/05/2024

Systemic Review

Cardiovascular system : Chest pain - no; Breathing difficulty - no

Respiratory system : - Nil Significant

Oral and dental : - Nil Significant

Gastrointestinal system : Appetite - normal; Bowel habits - regular

Genitourinary system : Frequency - normal; Dysuria/burning micturition - intermittent; Urgency - no

Gynaec history : Last menstrual period - 11-5-24; Pregnant - No; Periods - regular

Central nervous system : Head ache - on and off

Eyes : Vision - normal with glasses; Glasses - yes; Glasses for - reading

ENT : - Nil Significant

Musculoskeletal system :

Spine and joints
Back - pain

Skin : - Nil Significant

Weight : - stable

General symptoms : General symptoms - tiredness, weakness

**MEDIWHEEL FULL BODY ANNUAL PLUS CHECK

Present medications : - Nil

Past medical history

Past medical history - nil significant

Covid 19 - No

Surgical history

Surgical history - Nil

Personal history

Ethnicity - Indian Asian

Marital status - Married

Profession - government employee

Diet - Mixed Diet

Alcohol - does not consume alcohol

Smoking - No

Chews tobacco - No

Physical activity - Sedentary

Family history

Father - has expired

Aged - 55

Cause - diabetes mellitus,renal disease

Mother - alive

Aged - 75

Cause - diabetes mellitus

Brothers - 6

Sisters - 4

Diabetes - father,mother,sister

Hypertension - mother,sister

Coronary artery
disease - none

Cancer - None

Physical Examination

General

MEDIWHEEL FULL BODY ANNUAL PLUS CHECK
ADVANCED-FEMALE

General appearance - normal
 Build - over weight
 Height - 145
 Weight - 56.3
 BMI - 26.78
 Pallor - No
 Oedema - no
 SpO2 - 99

Cardiovascular system

Heart rate (Per minute) - 93
 Rhythm - Regular
 - B.P. Sitting
 Systolic(mm of Hg) - 162
 Diastolic(mm of Hg) - 91
 Heart sounds - S1S2+

Respiratory system

Breath sounds - Normal vesicular breath sounds

Abdomen

Appearance - Normal
 Organomegaly - No
 Tenderness - No

Central nervous system

- No neurological deficit

Skin

- No significant finding

Musculo Skeletal System

- No significant finding

Psychological Assessment

**MEDIWHEEL FULL BODY ANNUAL PLUS CHECK

AHC Physician / Consultant Internal Medicine

Note :- The Health Check-up examinations and routine investigations have certain limitations and may not be able to detect all the diseases. Any new or persisting symptoms should be brought to the attention of the Consulting Physician. Additional tests, consultations and follow up may be required in some cases.

AICVD RISK SCORE REPORT

RISK STATUS	YOUR SCORE	ACCEPTABLE SCORE
Moderate Risk	6	4

Your likelihood of developing cardiovascular disease in the next ten years is 1.3 times higher than the people of your age and gender

The AICVD risk score developed by Apollo Hospitals is a novel artificial intelligence-based risk scoring system that predicts your risk of having Coronary Artery Disease (CAD) related events in the next ten years. This scoring system uses Indian data and has been validated by multiple national and international institutions. This risk score is more than 92% accurate and has been compiled based on your physical parameters, heart health attributes, lifestyle and medical history. **Note:** The risk category is determined through the ratio between guest score and acceptable score at multiple decimal points. The outputs are shown in whole numbers.

Based on your AICVD risk score you are advised the following:

- Follow the guidance and education on **lifestyle and dietary management provided through the ProHealth program. Maintain a healthy BMI (<25). Avoid tobacco in any form and if you are a smoker, stop smoking.**
- Continue with **medications** for high blood pressure, diabetes, or dyslipidemia, if advised by your physician. Maintain HbA1c <7% (<53mmol/mol), blood pressure <140/90mmHg.
- Follow your physician’s advice regarding **follow up tests, consults and annual health assessment**
- **It is recommended that you visit your physician every 6 months** if you have:
 - o Uncontrolled high blood pressure, Diabetes, Dyslipidemia, Coronary heart disease

DISCLAIMER

1. This is not a diagnostic tool and it does not guarantee accuracy of the result and cannot be acted upon independently.
2. This risk score and clinical algorithm is a general guideline for physicians. Any additional laboratory investigations, diagnostic imaging, treatment or patient education related to lifestyle management is under the physician’s or cardiologist’s discretion.
3. To ensure the information in the report is up to date, accurate and correct, doctor shall be consulted for interpretation of the report.
4. Apollo Hospitals and its staff does not offer any assurance on the information made available or be liable for any loss or damage as the said report is based on the AICVD risk score without any intervention from their side.
