PATHOLOGIST
Regd. No. 30428 (PMC)

Interpretation:

- 1.If the feedback system involving the thyroid gland is not functioning properly due to one of a variety of disorders, then Increased or decreased amount of thyroid hormones may result.
- 2.When TSH concentrations are increased ,the thyroid will make and release inappropriate amount od T4 and T3 ,and the person may experience symptoms associated with hypothyroidism.
- 3.If there is decreased production of TSH hormones ,the person may experience symptoms of hyperthyroidism.
