### Blood Group & RH Factor

SPECIMEN	WHOLE BLOOD
ABO GROUP	A
RH FACTOR	POSITIVE
INTERPRETATION	

The ABO system consists of A, B, AB, and O blood types. People with type AB blood are called universal recipients because they can receive any of the ABO types. People with type O blood are called universal donors because their blood can be given to people with any of the ABO types. Mismatches with the ABO and Rh blood types can trigger one of the most serious, sometimes life-threatening, transfusion reactions. But these types of reactions are rare.

#### Rh system

The Rh system classifies blood as Rh-positive or Rh-negative based on the presence or absence of Rh antigens on the surface. People with Rh-positive blood can receive Rh-negative blood, but people with Rh-negative blood will have a transfusion reaction if they receive Rh-positive blood. Mismatched transfusions of mismatched Rh blood types can be serious.

Investigation : HbA1c (M)  
 Analytical Unit : mg/dL (M)

**Glycosylated Hemoglobin [GHb/HbA1c]**

Test Name	Result	Unit	Biological Reference Interval
HbA1c (Glycosylated Haemoglobin)	7.30	%	4.00 - 5.60 (F) 5.00 - 7.00 (M) 5.00 - 7.00 (F) 5.00 - 7.00 (M) 5.00 - 7.00 (M)
Mean Fasting Glucose	137.6	mg/dL	70 - 100

**CLINICAL SIGNIFICANCE**

Glycated hemoglobin (HbA1c) is a long-term indicator of blood glucose levels. It is formed when glucose in the blood binds to hemoglobin. The percentage of HbA1c in the blood reflects the average blood glucose levels over the past 2-3 months. The normal range for HbA1c is 4.0% to 5.6%. Values between 5.7% and 6.4% indicate prediabetes, and values of 6.5% or higher indicate diabetes. The extent of glycation is directly proportional to the average blood glucose level over the past 2-3 months.

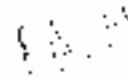

**Reference range (non-pregnant adults)**

Normal	4.00 - 5.60 (F) 5.00 - 7.00 (M)
Prediabetes	5.70 - 6.40 (F) 5.70 - 6.40 (M)
Diabetes	6.50 or higher (F) 6.50 or higher (M)

Note: HbA1c test results are always reported relative to the patient's clinical history and should be discussed with the physician. For more information, please contact our laboratory.
