Dear Prime Hospital and Research Centre

We have received a booking request with the following details. Provide your confirmation by clicking on the Yes button.

**You confirm this booking?** Yes No

Name : RAM JEE LAL MEENA  
 Contact Details : 8696911977  
 Hospital Package Name : Mediwheel Full Body Plus Annual Check Advanced With Vitamin Male  
 Location : Shop No- 105 A Civil Line Main Road Dewas  
 Appointment Date : 13-07-2024

| Member Information |         |        |
|--------------------|---------|--------|
| Booked Member Name | Age     | Gender |
| RAM JEE LAL MEENA  | 54 year | Male   |

#### Tests included in this Package

- Urine Analysis
- Blood Group
- CBC
- HbA1c
- Lipid Profile
- Kidney Profile
- Liver Profile
- Blood Glucose (Post Prandial)
- Prostate Specific Antigen (PSA Male)
- Phosphatase
- Thyroid Profile
- Vitamin B12
- Vitamin D
- Urine Sugar Fasting
- Urine Sugar PP
- ESR
- Blood Glucose (Fasting)
- TMT OR 2D ECHO (Any 1) Chosen By Candidate
- Chest X-ray
- ECG
- USG Whole Abdomen — Not available
- Dietician Consultation — Not available
- Eye Check-up consultation — Not available
- Ent-Consultation
- Dental Consultation — Not available
- General Physician Consultation

**Vitamin B12, Serum**

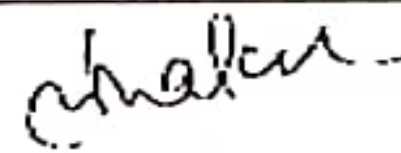

| Parameter    | Result | Unit  | Biological Reference Interval |
|--------------|--------|-------|-------------------------------|
| VITAMIN B 12 | 688.0  | pg/ML | 211-911                       |

**CHEMILUMINESCENT MICROPARTICLE IMMUNOASSAY**

Interpretation : Vitamin B-12, also called cobalamin, is a water-soluble vitamin with a key role in the normal functioning of the brain and nervous system, and for the formation of blood. It is normally involved in the metabolism of every cell of the human body, especially affecting DNA synthesis and regulation, but also fatty acid metabolism and amino acid metabolism. Vitamin B12 deficiency is most commonly caused by low intakes, but can also result from mal-absorption, certain intestinal disorders, low presence of binding proteins, and using of certain medications. Vitamin B12 is rare from plant sources, so vegetarians will be the vulnerable populations most likely to suffer from vitamin B12 deficiency. Infants are at a higher risk of vitamin B12 deficiency if they were born to vegetarian mothers. The elderly who have diets with limited meat or animal products are vulnerable populations as well. Vitamin B12 deficiency can manifest itself as anemia and in some cases cause permanent neurological damage. At levels only slightly lower than normal, a range of symptoms such as fatigue, depression, and poor memory may be experienced
