# SYSTEMIC REVIEW

### Cardiovascular system

- Nil Significant

# Past medical history

Do you have any allergies?

# Surgical history

Surgical history

Marital status

Chews tobacco

Physical activity

Diet

Alcohol

Smoking

### Immunization history

- Covid Dose1, Covid Dose2

Personal history

- Married
- Mixed Diet
- does not consume alcohol

- level ground walking

### Cardiovascular system - 82 Heart rate (Per minute) Rhythm - Regular Systolic(mm of Hg) - 130 Diastolic(mm of Hg) - 80 Heart sounds - S1S2+

### **Respiratory system**

Breath sounds

- Normal vesicular breath sounds

Organomegaly	- No
Tenderness	- No

	AICVD RISK SCORE REI	PORT
RISK STATUS	YOUR SCORE	ACCEPTABLE SCORE
Low Risk	2	3

### Your cardiovascular disease risk in the next 10 years is within the Normal limits for your age and gender

The AICVD risk score developed by Apollo Hospitals is a novel artificial intelligence -based risk scoring system that predicts your risk of having Coronary Artery Disease (CAD) related events in the next ten years. This scoring system uses Indian data and has been validated by multiple national and international institutions. This risk score is more than 92% accurate and has been compiled based on your physical parameters, heart health attributes, lifestyle and medical history. **Note:** The risk category is determined through the ratio between guest score and acceptable score at multiple decimal points. The outputs are shown in whole numbers.

### Based on your AICVD risk score you are advised the following:

- Follow the guidance and education on lifestyle and dietary management provided through the ProHealth program. Maintain a healthy BMI (<25). Avoid tobacco in any form and if you are a smoker, stop smoking.
- Continue with **medications** for high blood pressure, diabetes, or dyslipidemia, if advised by your physician. Maintain HbA1c <7% (<53mmol/mol), blood pressure <140/90mmHg.
- Follow your physician's advice regarding follow up tests, consults and annual health assessment

### DISCLAIMER

- 1. This is not a diagnostic tool and it does not guarantee accuracy of the result and cannot be acted upon independently.
- 2. This risk score and clinical algorithm is a general guideline for physicians. Any additional laboratory investigations, diagnostic imaging, treatment or patient education related to lifestyle management is under the physician 's or cardiologist's discretion.
- 3. To ensure the information in the report is up to date, accurate and correct, doctor shall be consulted for interpretation of the report.
- 4. Apollo Hospitals and its staff does not offer any assurance on the information made available or be liable for any loss or damage as the said report is based on the AICVD risk score without any intervention from their side .
- 5. By usage of the AICVD risk score, it is deemed that the beneficiary of this service has agreed to get the same done at his own risk and further agrees with this disclaimer without any limitation or any clauses or sub-clauses.
