Dear Mr. GUNJAN DUBEY

Thank you for choosing Apollo ProHealth, India's first personalized, predictive health screening program with health risk assessments curated just for you to guide targeted intervention, continuum of care and a path to wellness. Our holistic care continuum integrates clinical expertise and artificial intelligence to gauge and avert the risk, onset and progression of non-communicable diseases (NCDs).

In this personalized health report, you will find your

- Medical History and Physical examination results
- Investigations Results
- Artificial Intelligence powered risk scores
- Physician's Impressions on your Health
- Path to Wellness: A personalized management protocol, including follow-up assessments
- Vaccination counselling advice

Apollo ProHealth encompasses the following processes:

Personalized Health Risk Assessment (pHRA): Based on your online risk assessment, medical history, physical examination, and psychological evaluation, we recommended a health screening assessment for you, including diagnostic and imaging tests. Based on the results of these assessments, we have advised additional follow-up tests and consultations - details of which we have included in your report. Your physician will explain their relevance, and we strongly suggest you comply with the recommendations.

Health Mentor: We have assigned a dedicated health mentor to proactively work with you towards your health goals and ensure that you regularly adhere to the guidance and recommendations from clinical and nutrition consultants. Your health mentor will call you periodically to track your progress

ProHealth App: You will get access to the Apollo ProHealth App, which will facilitate easy navigation of personal health records, progress towards your health goals, appointment booking, customized tips and guidance for health and lifestyle management, and regularly connecting with your Health Mentor through the in-app chat. Until you return for your 2nd-year assessment, you will receive periodic updates and reminders to motivate you to keep up the momentum regarding health goal milestones.

Follow- Up Consultation:

For any follow-up consultations, you can visit your ProHealth physician in-person at the center or you can book a virtual consultation through <https://www.apollo247.com/specialties> or through the Apollo 247 app on your phone.

Scan the QR code to download the Apollo 247 App

You can also download the Apollo 247 app on

ANDROID IOS

Disclaimer: *The services offered in the program may vary as per the respective agreements made in the program or center or agreed mutual consent.*

Note: *You are entitled to one complimentary follow-up consultation with your ProHealth physician within a period of 1 year. Please contact your health mentor for the complimentary consult coupon code. This is available for ProHealth Super, Regal and Covid Recovery and Wellness programs*

Systemic Review

Cardiovascular system : Chest pain - no; Breathing difficulty - no

Respiratory system : - Nil Significant

Oral and dental : - Nil Significant

Gastrointestinal system : Appetite - normal; Bowel habits - regular

Genitourinary system : Frequency - normal; Dysuria/burning micturition - no; Urgency - no

Central nervous system : Head ache - on and off

Eyes : - Nil Significant

ENT : - Nil Significant

Musculoskeletal system :

Spine and joints
Spondylosis - cervical

Skin : - Nil Significant

Weight : - stable

General symptoms : General symptoms - lethargy, tiredness, weakness

Present medications : - Nil

Past medical history

- Past medical history - nil significant
- Covid 19 - Yes
- Post detection (3 Weeks) - No
- Hospitalization for Covid 19 - No

Surgical history

- Fistulectomy - 2022

Immunization history

- Covid Dose1,Covid Dose2

Personal history

- Ethnicity - Indian Asian
- Marital status - Married
- No. of children - 1
- Profession - government employee
- Diet - Vegetarian
- Alcohol - does not consume alcohol
- Smoking - No
- Chews tobacco - No
- Physical activity - Mild

Family history

- Father - alive
- Aged - 62
- Mother - alive
- Aged - 60
- Brothers - 1
- Sisters - 1
- Diabetes - mother
- Hypertension - mother
- Coronary artery disease - none
- Cancer - None

Physical Examination

General

General appearance	- normal
Build	- normal
Height	- 183
Weight	- 85.7
BMI	- 25.59
Pallor	- No
Oedema	- no

Head and ENT

Nose	- Deviation of septum to left
------	-------------------------------

Cardiovascular system

Heart rate (Per minute)	- 75
Rhythm	- Regular
Systolic(mm of Hg)	- 114
Diastolic(mm of Hg)	- 75
	- B.P. Sitting
Heart sounds	- S1S2+

Respiratory system

Breath sounds	- Normal vesicular breath sounds
---------------	----------------------------------

Abdomen

Appearance	- Normal
Organomegaly	- No
Tenderness	- No

Central nervous system

	- No neurological deficit
--	---------------------------

Skin

	- No significant finding
--	--------------------------

Musculo Skeletal System

- No significant finding

Psychological Assessment

Psychological assessment - Normal

AICVD RISK SCORE REPORT

RISK STATUS	YOUR SCORE	ACCEPTABLE SCORE
Moderate Risk	4	4

Your likelihood of developing cardiovascular disease in the next ten years is 1.3 times higher than the people of your age and gender

The AICVD risk score developed by Apollo Hospitals is a novel artificial intelligence-based risk scoring system that predicts your risk of having Coronary Artery Disease (CAD) related events in the next ten years. This scoring system uses Indian data and has been validated by multiple national and international institutions. This risk score is more than 92% accurate and has been compiled based on your physical parameters, heart health attributes, lifestyle and medical history. **Note:** The risk category is determined through the ratio between guest score and acceptable score at multiple decimal points. The outputs are shown in whole numbers.

Based on your AICVD risk score you are advised the following:

- Follow the guidance and education on **lifestyle and dietary management provided through the ProHealth program. Maintain a healthy BMI (<25). Avoid tobacco in any form and if you are a smoker, stop smoking.**
- Continue with **medications** for high blood pressure, diabetes, or dyslipidemia, if advised by your physician. Maintain HbA1c <7% (<53mmol/mol), blood pressure <140/90mmHg.
- Follow your physician’s advice regarding **follow up tests, consults and annual health assessment**
- **It is recommended that you visit your physician every 6 months** if you have:
 - o Uncontrolled high blood pressure, Diabetes, Dyslipidemia, Coronary heart disease

DISCLAIMER

1. This is not a diagnostic tool and it does not guarantee accuracy of the result and cannot be acted upon independently.
2. This risk score and clinical algorithm is a general guideline for physicians. Any additional laboratory investigations, diagnostic imaging, treatment or patient education related to lifestyle management is under the physician’s or cardiologist’s discretion.
3. To ensure the information in the report is up to date, accurate and correct, doctor shall be consulted for interpretation of the report.
4. Apollo Hospitals and its staff does not offer any assurance on the information made available or be liable for any loss or damage as the said report is based on the AICVD risk score without any intervention from their side.
5. By usage of the AICVD risk score, it is deemed that the beneficiary of this service has agreed to get the same done at his own risk and further agrees with this disclaimer without any limitation or any clauses or sub-clauses.
